

# Whack & Slaughter

Almanach Of Stuff

## Preamble

Some time ago, an innovative, miniature independent skirmish system has been released into the gaming world: Whack & Slaughter.

Alas, the designer has made a bad mistake: While speaking of counters, he forgot to provide most of them.

Lots of skills relied on mechanics requiring them to make heavy use of counters.

The book you are now holding in your hand is meant to straighten this mistake:

For each school of skills you will get one page filled with counters.

Whether or not you will actually need them, does not matter: You will get them.

It is then up to you to print them out and to glue them to cardboard or whatelse to make them more sturdy.

Also the main manual contained the Hero Cards as well as some more stuff on pages with a colourful background image. Printing out your counters made you probably waste more ink than you needed, so basically everything you needed to print out has been moved out of the rulebook into this downloadable Almanach.

As always:

Happy slaughtering and kind regards,  
Kai

# Beastmaster

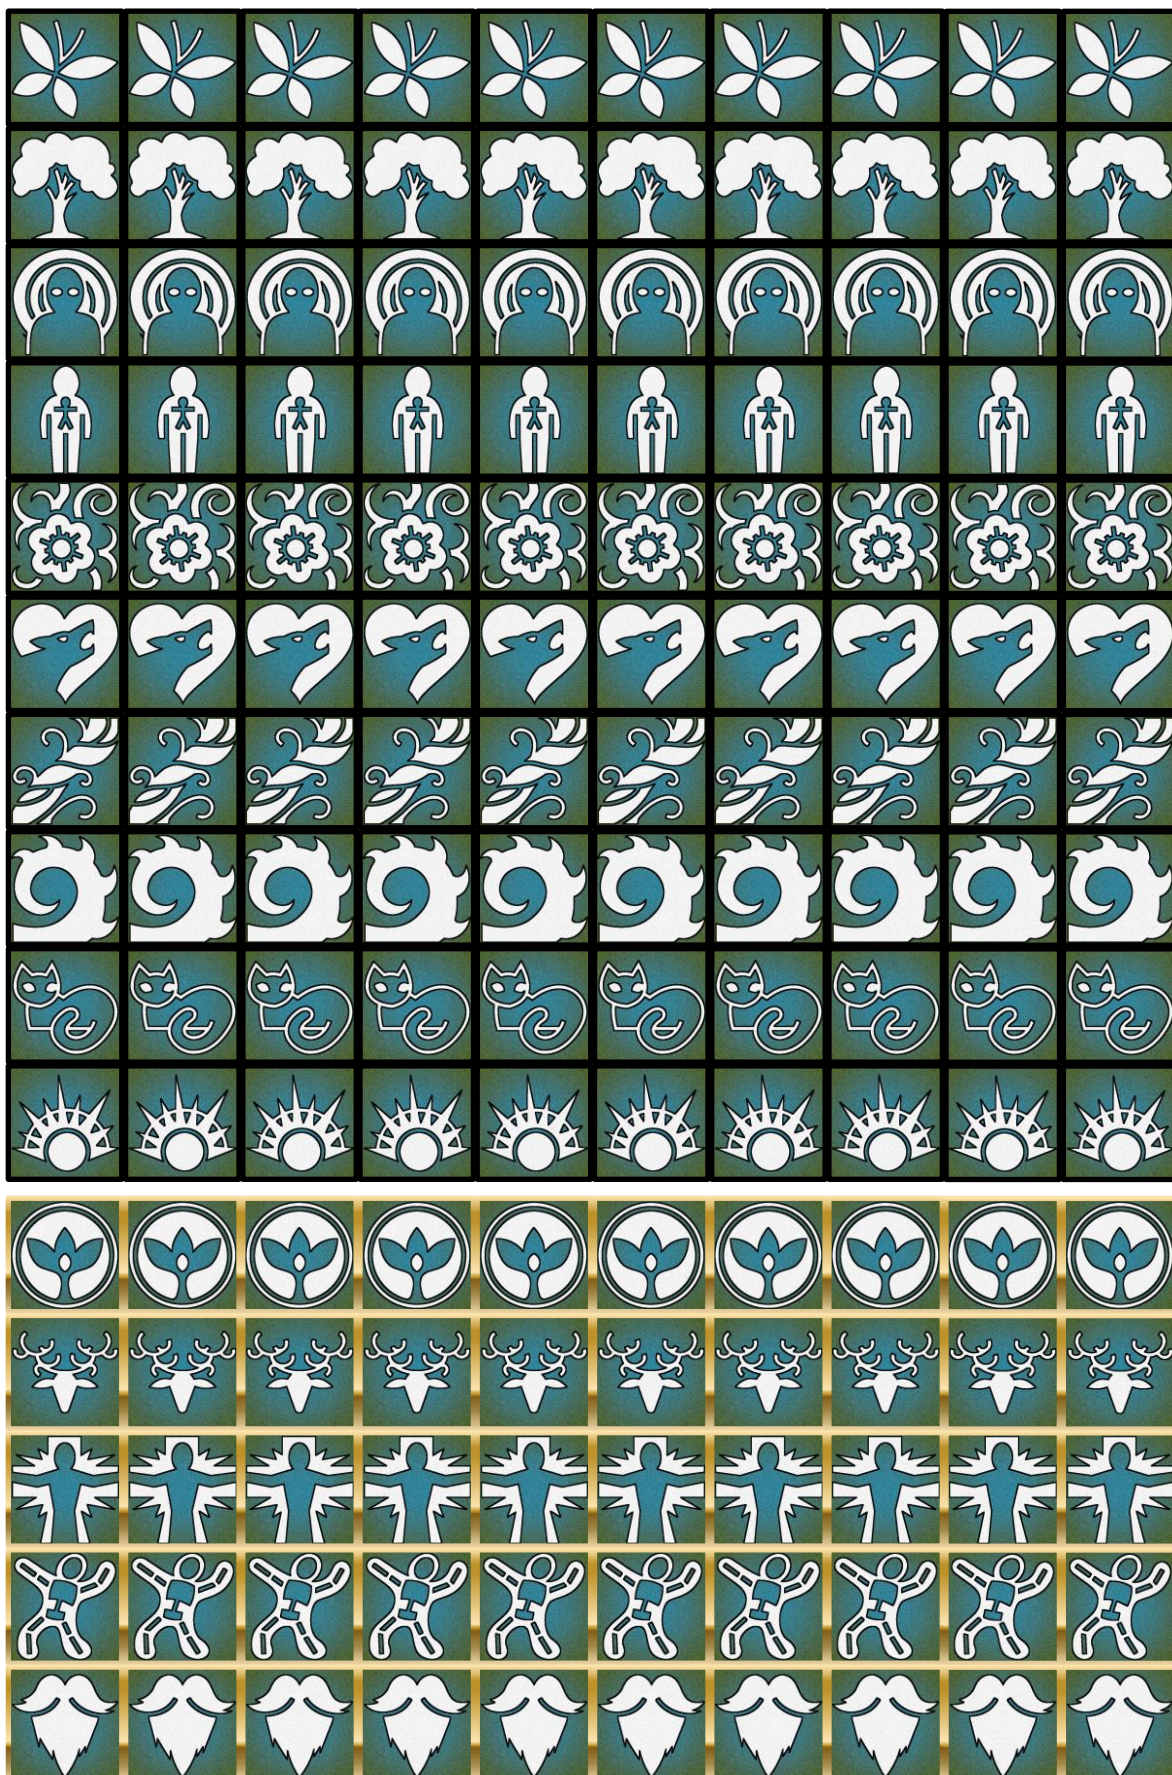

# Commander

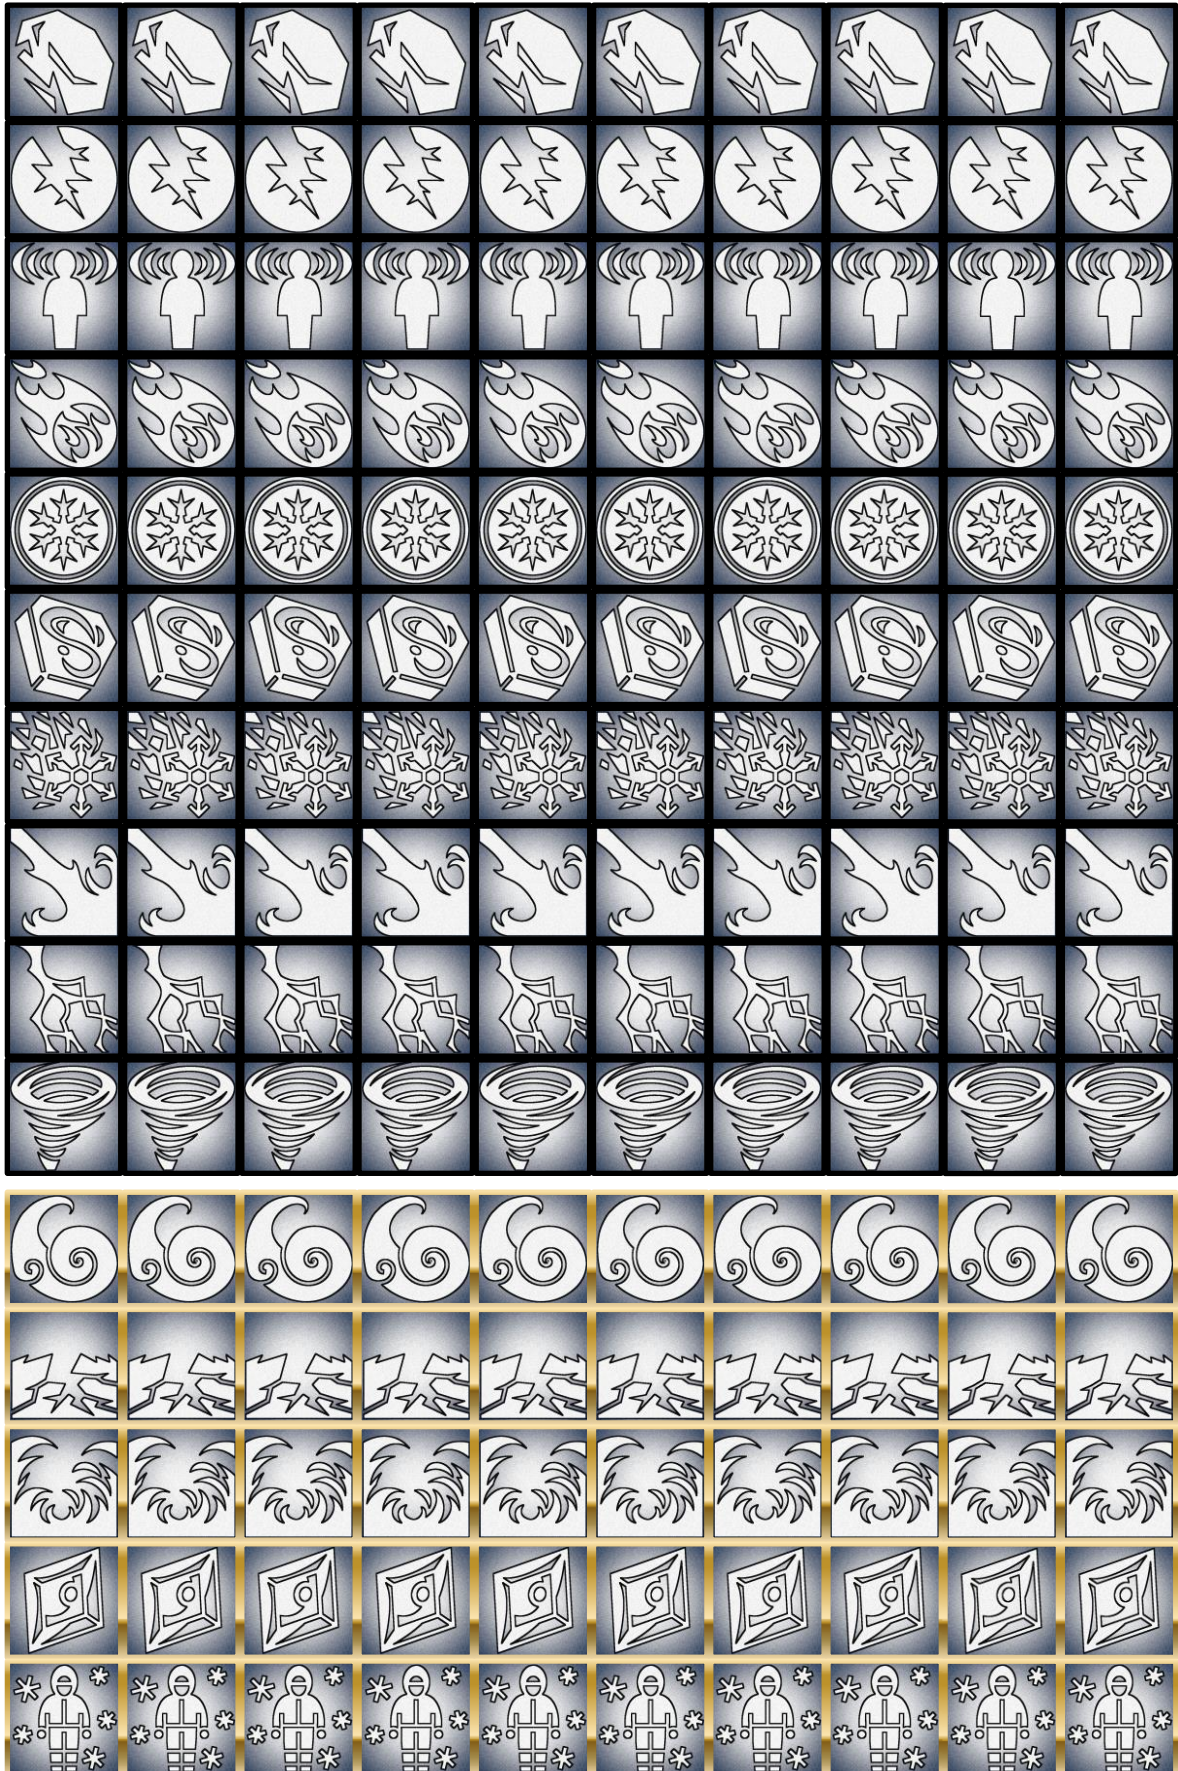

# Dirty Tricks

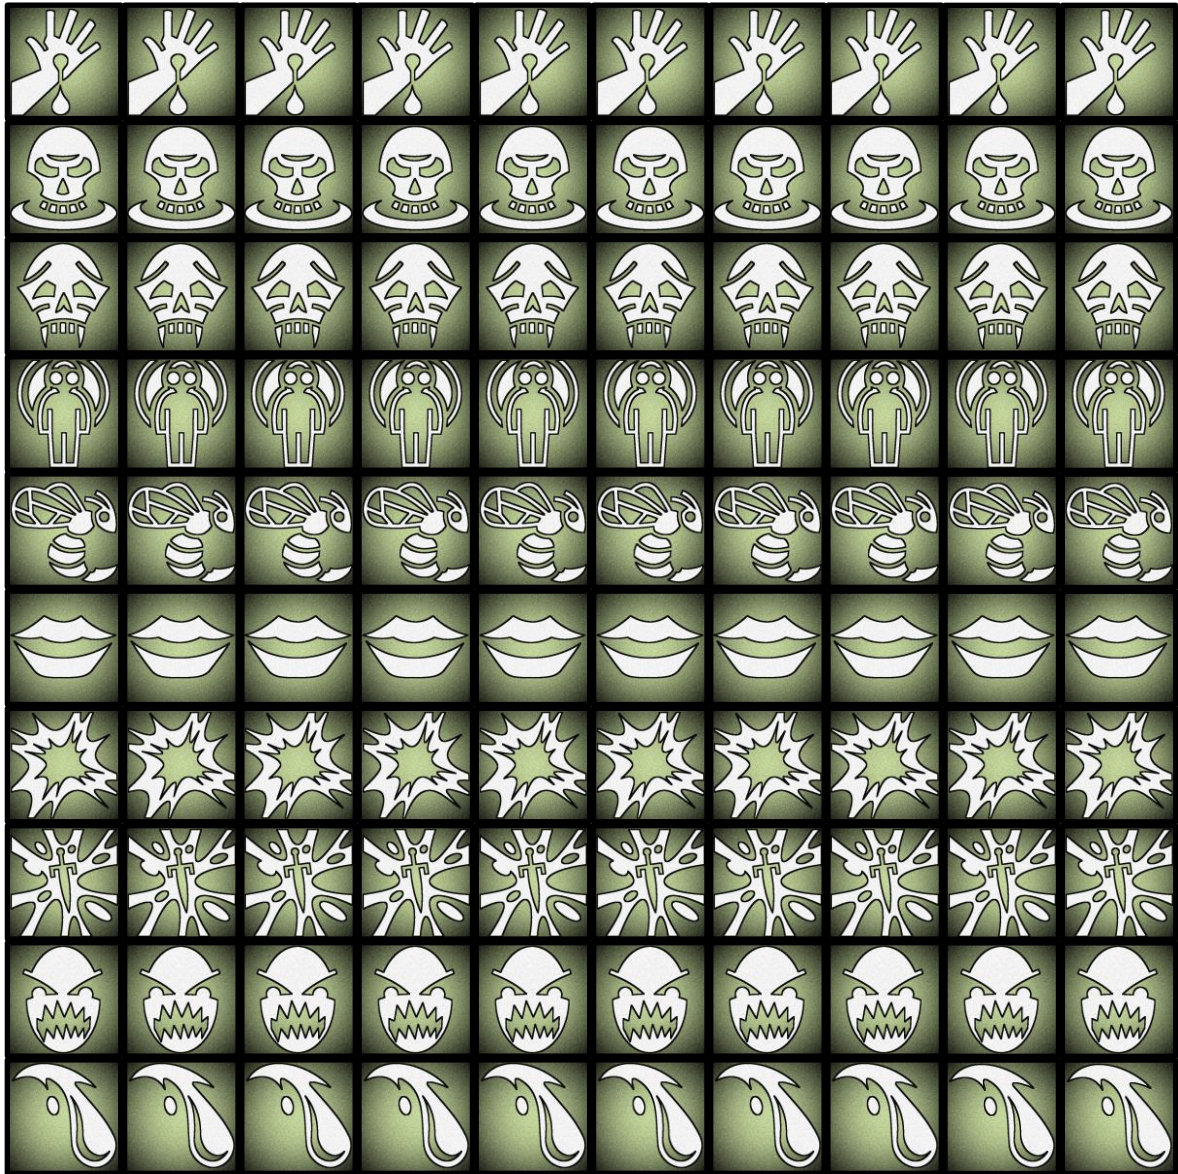

# Druid

# Elemental Mage

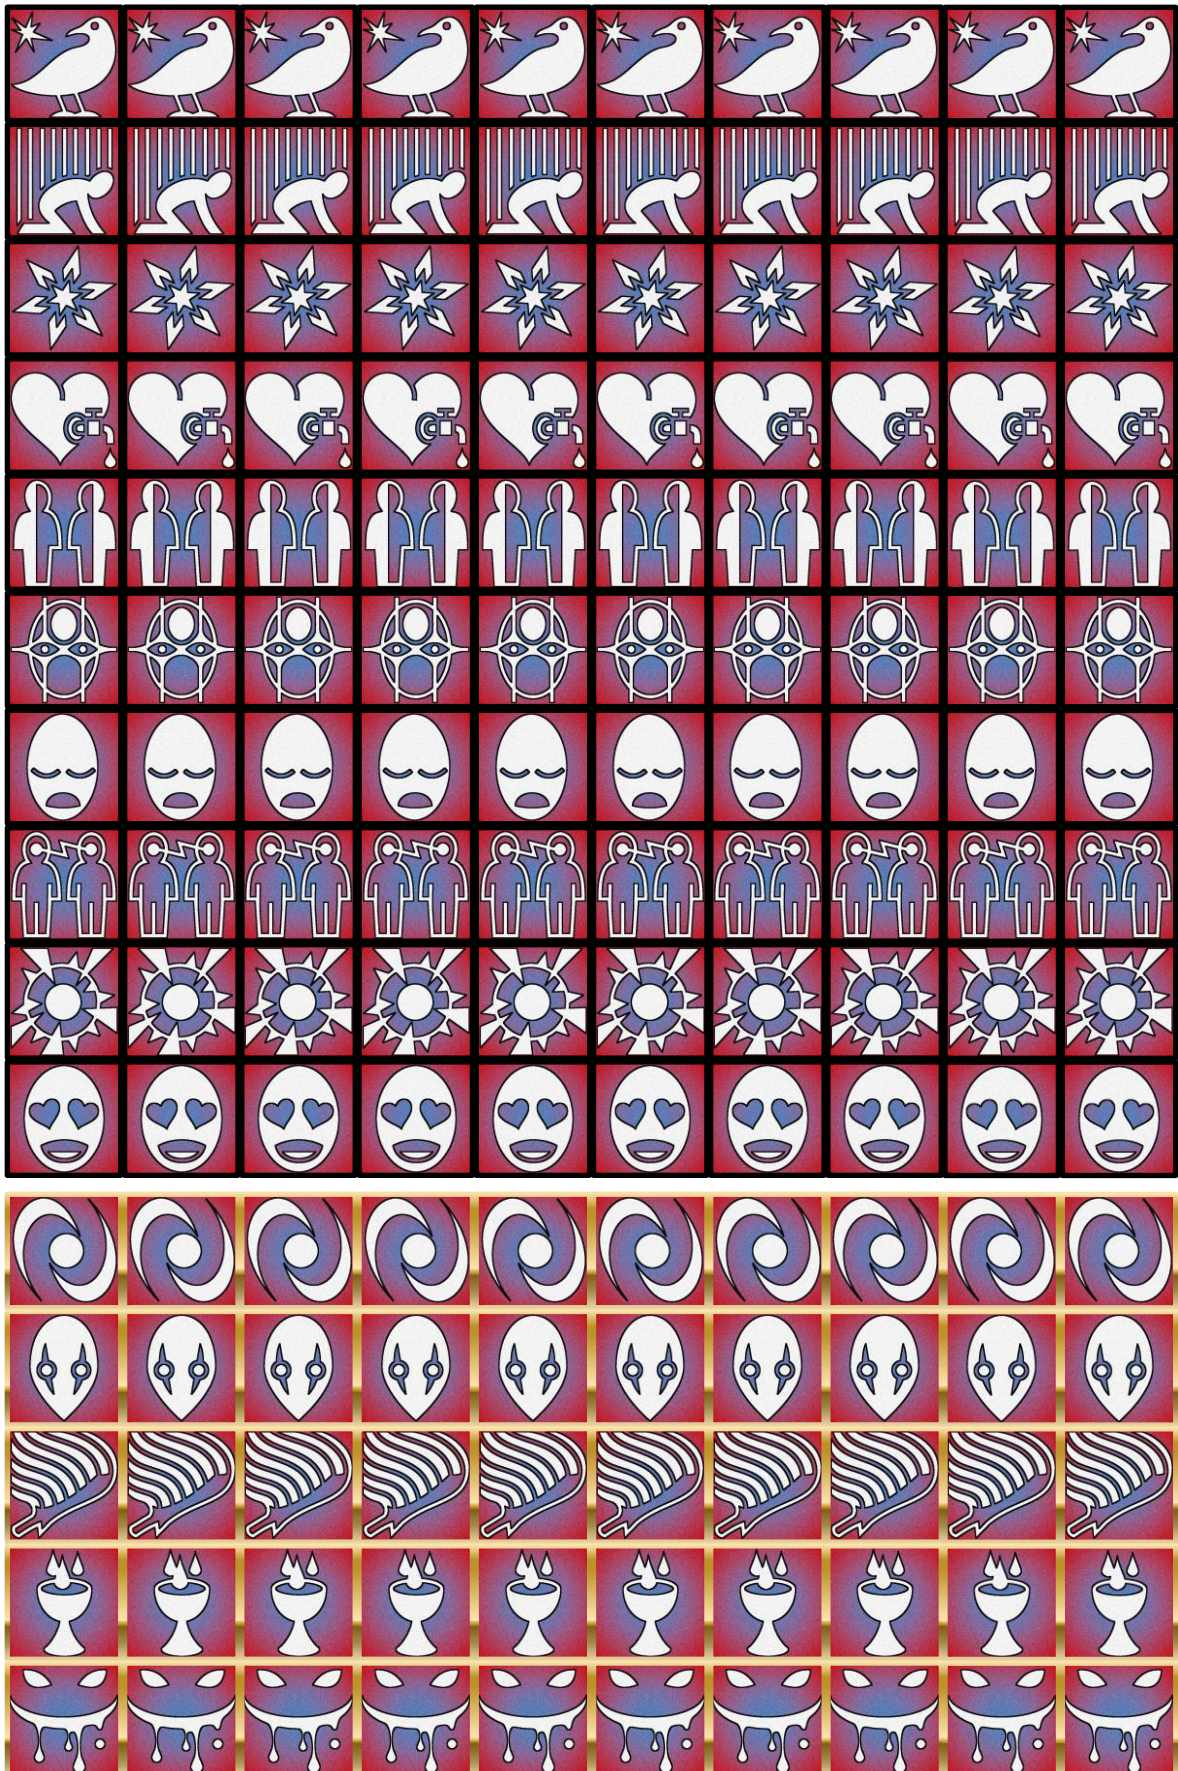

# Necromancer

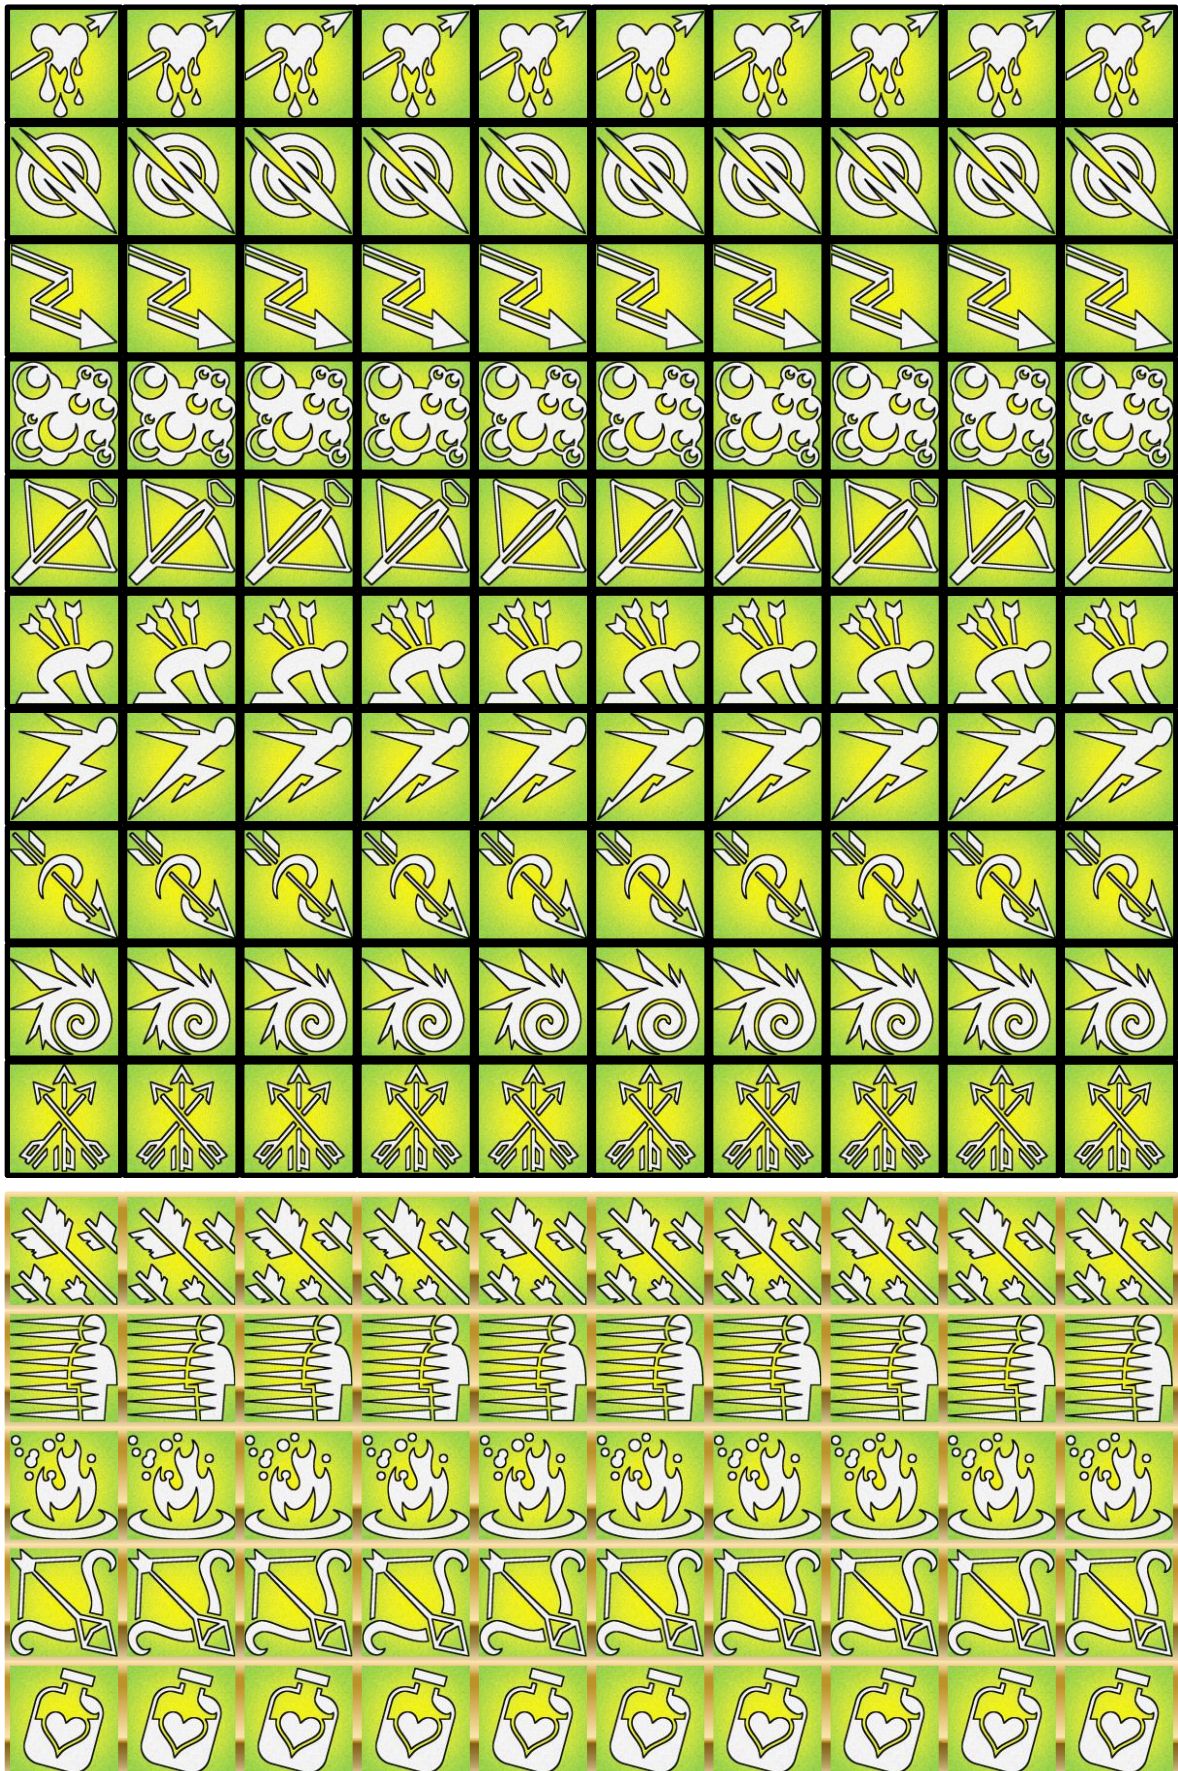

# Psion

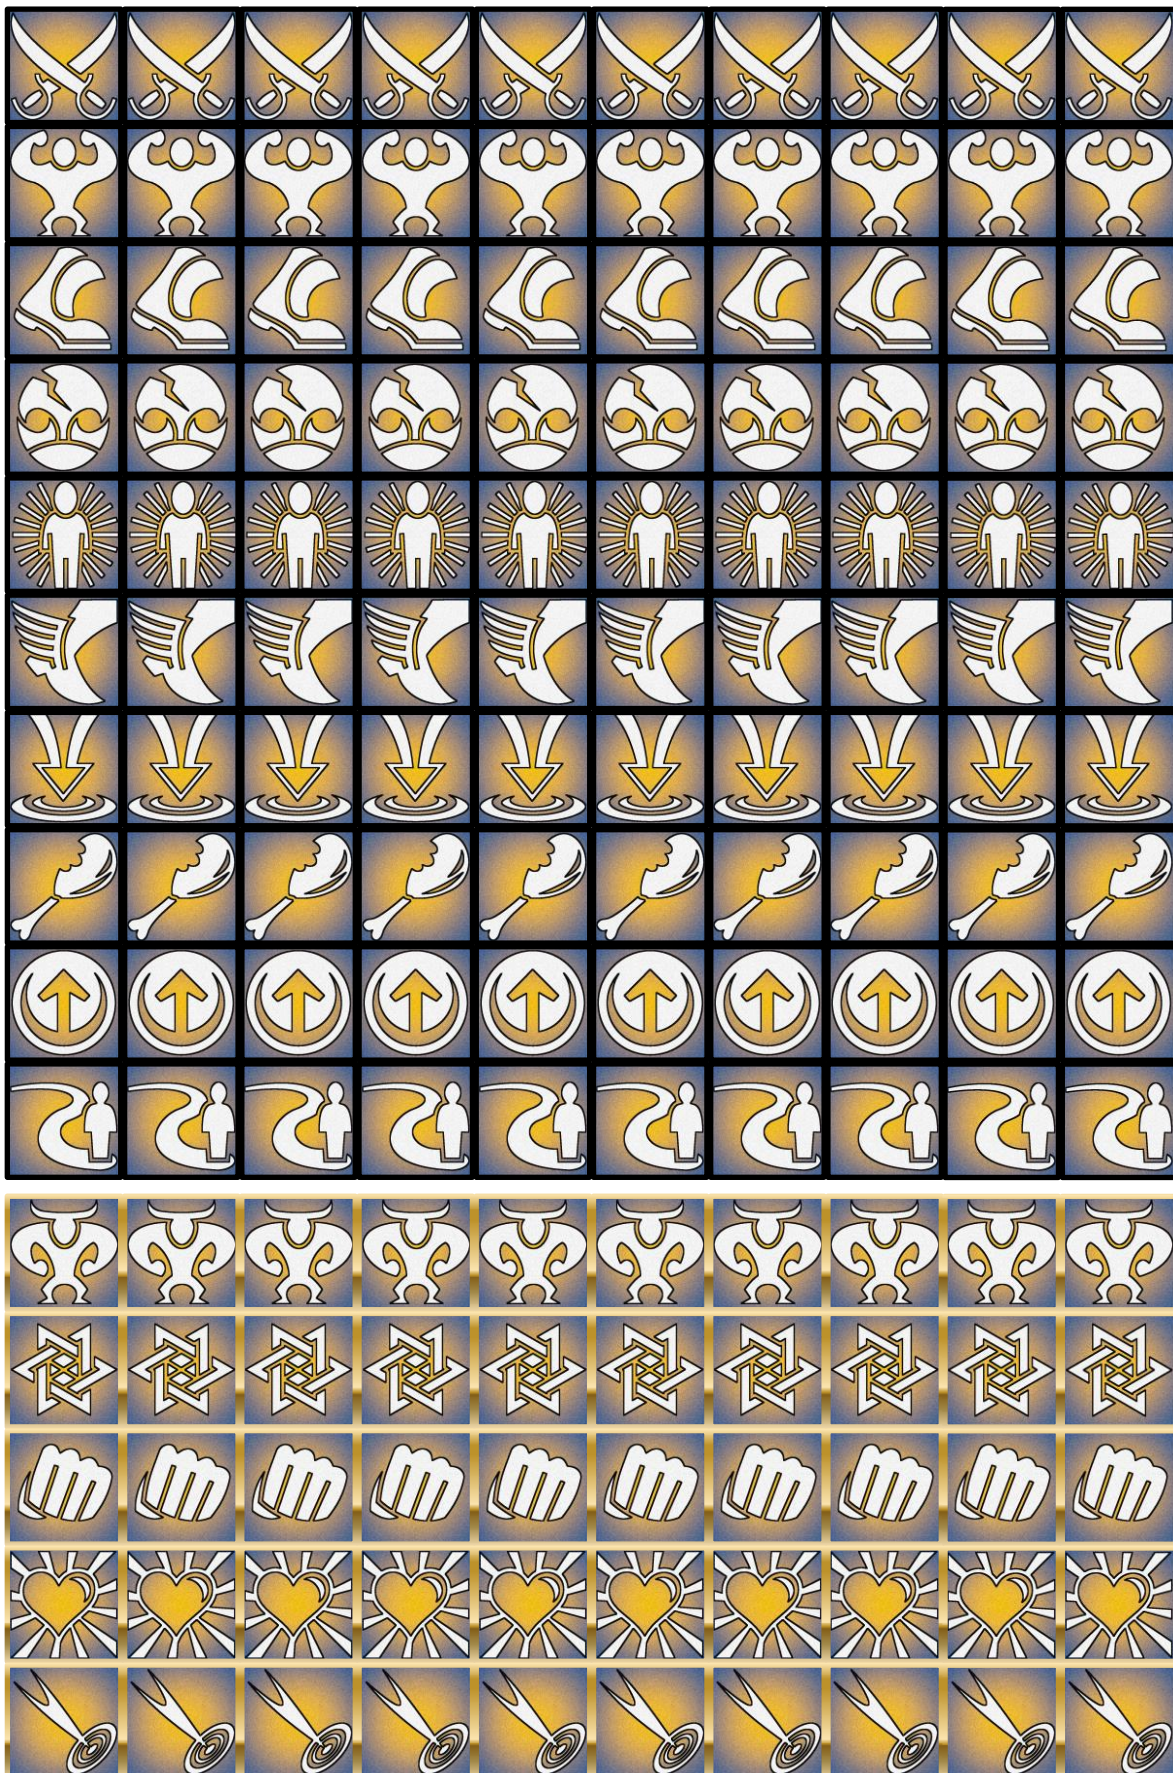

# Ranger

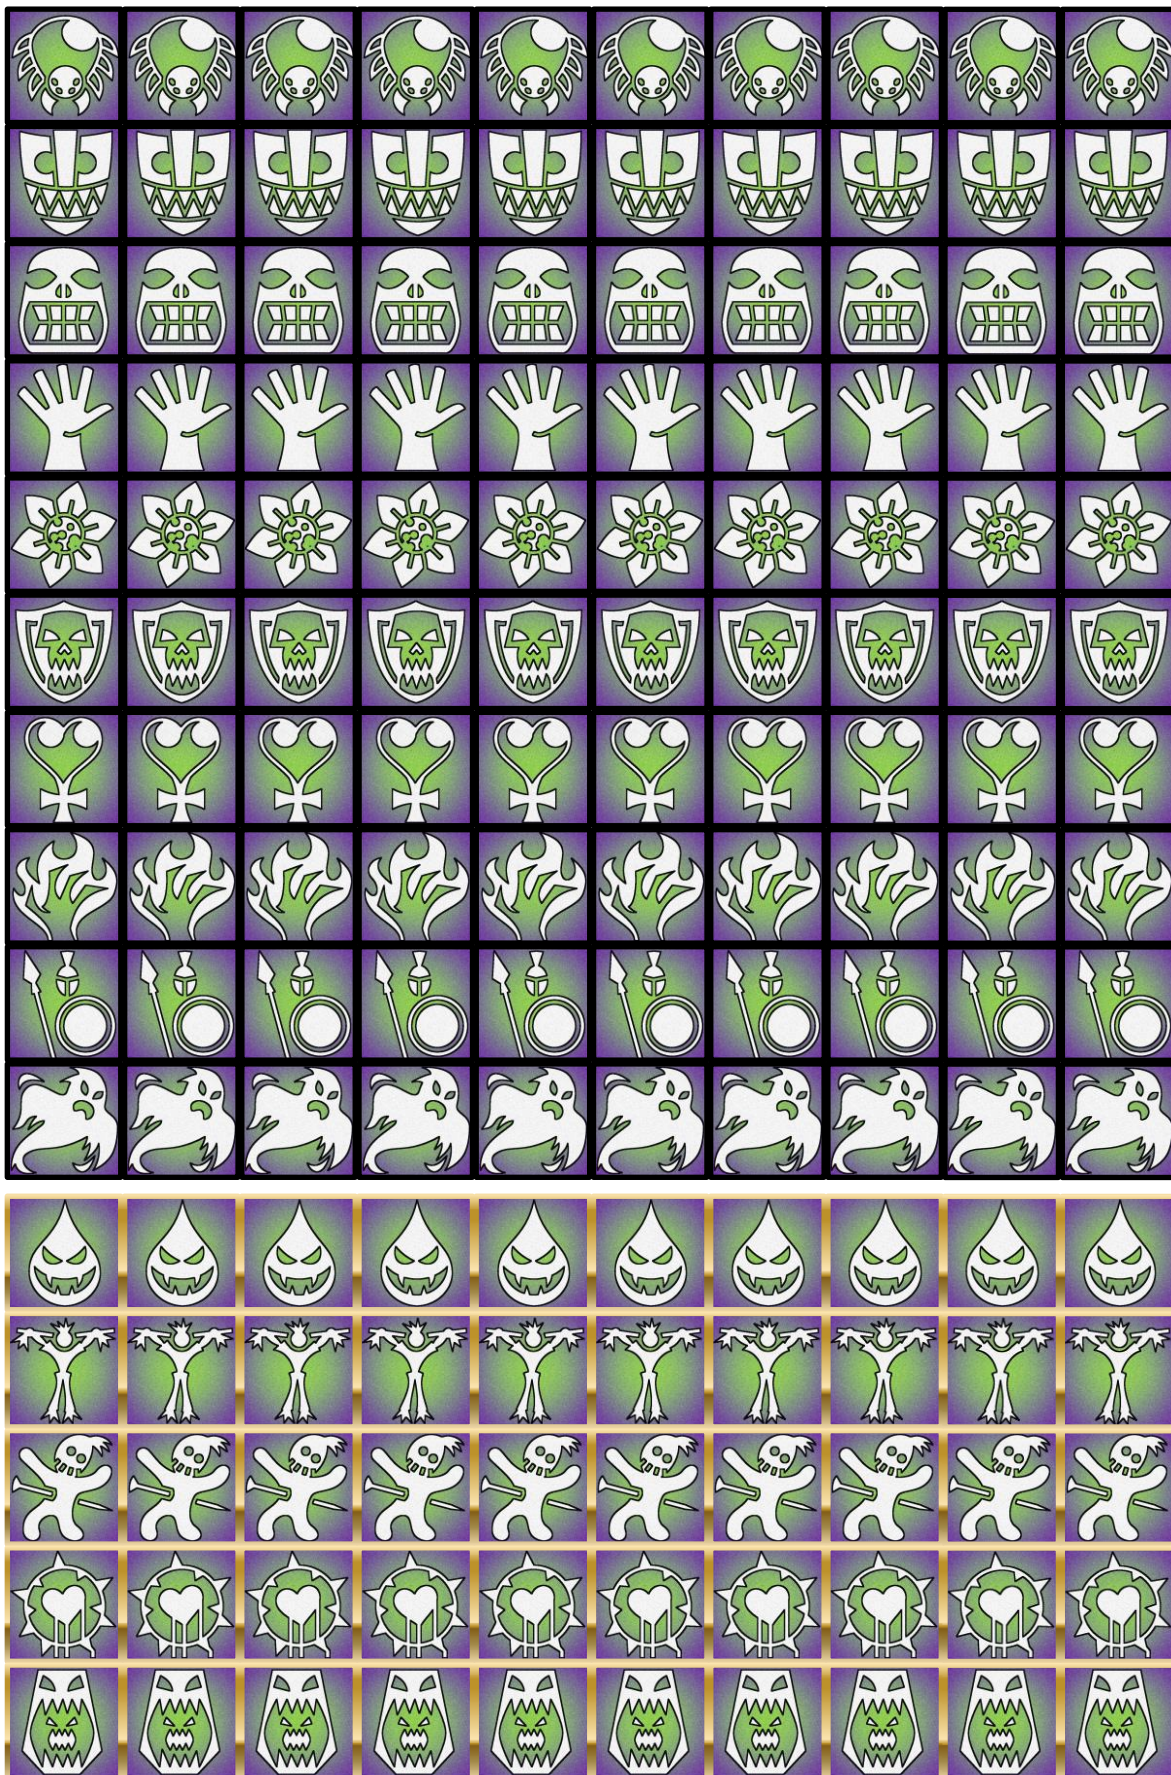

# Summoner

# Survival

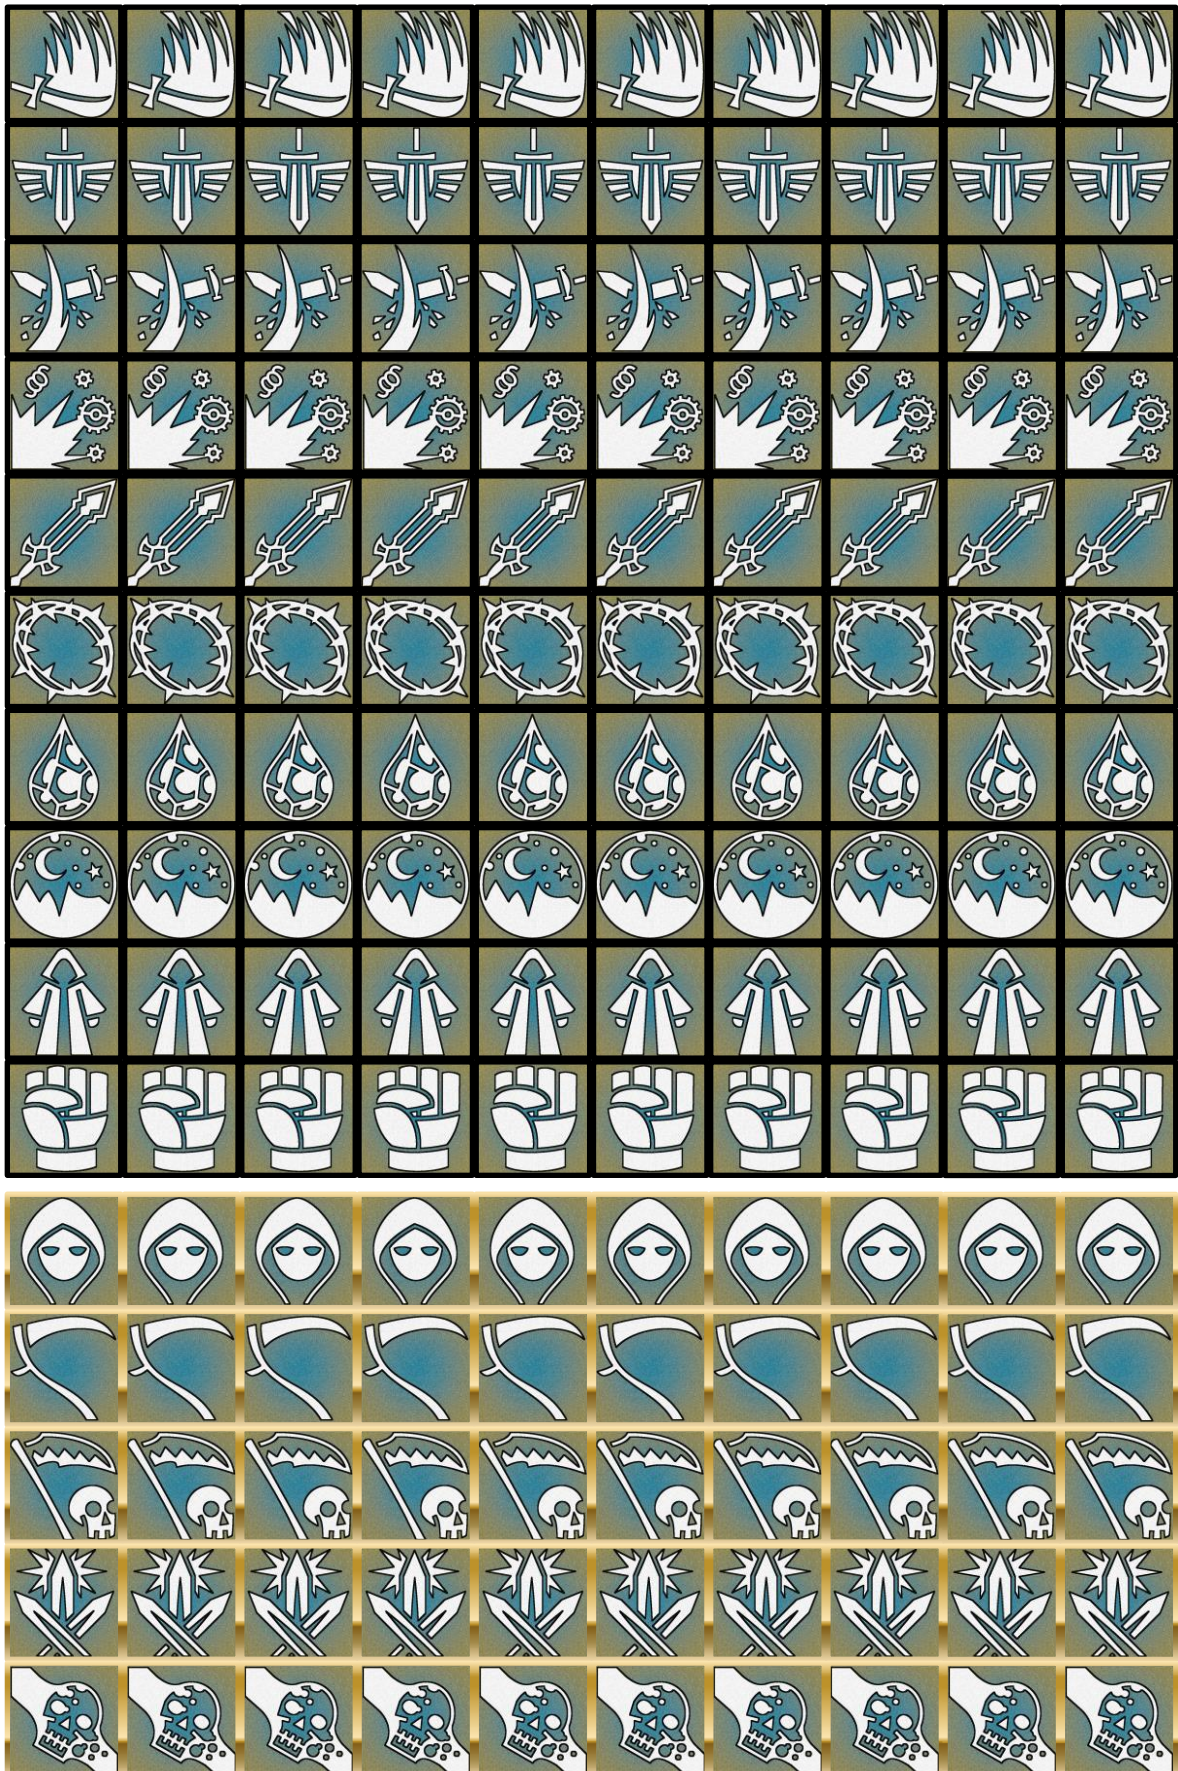

# Voodoo

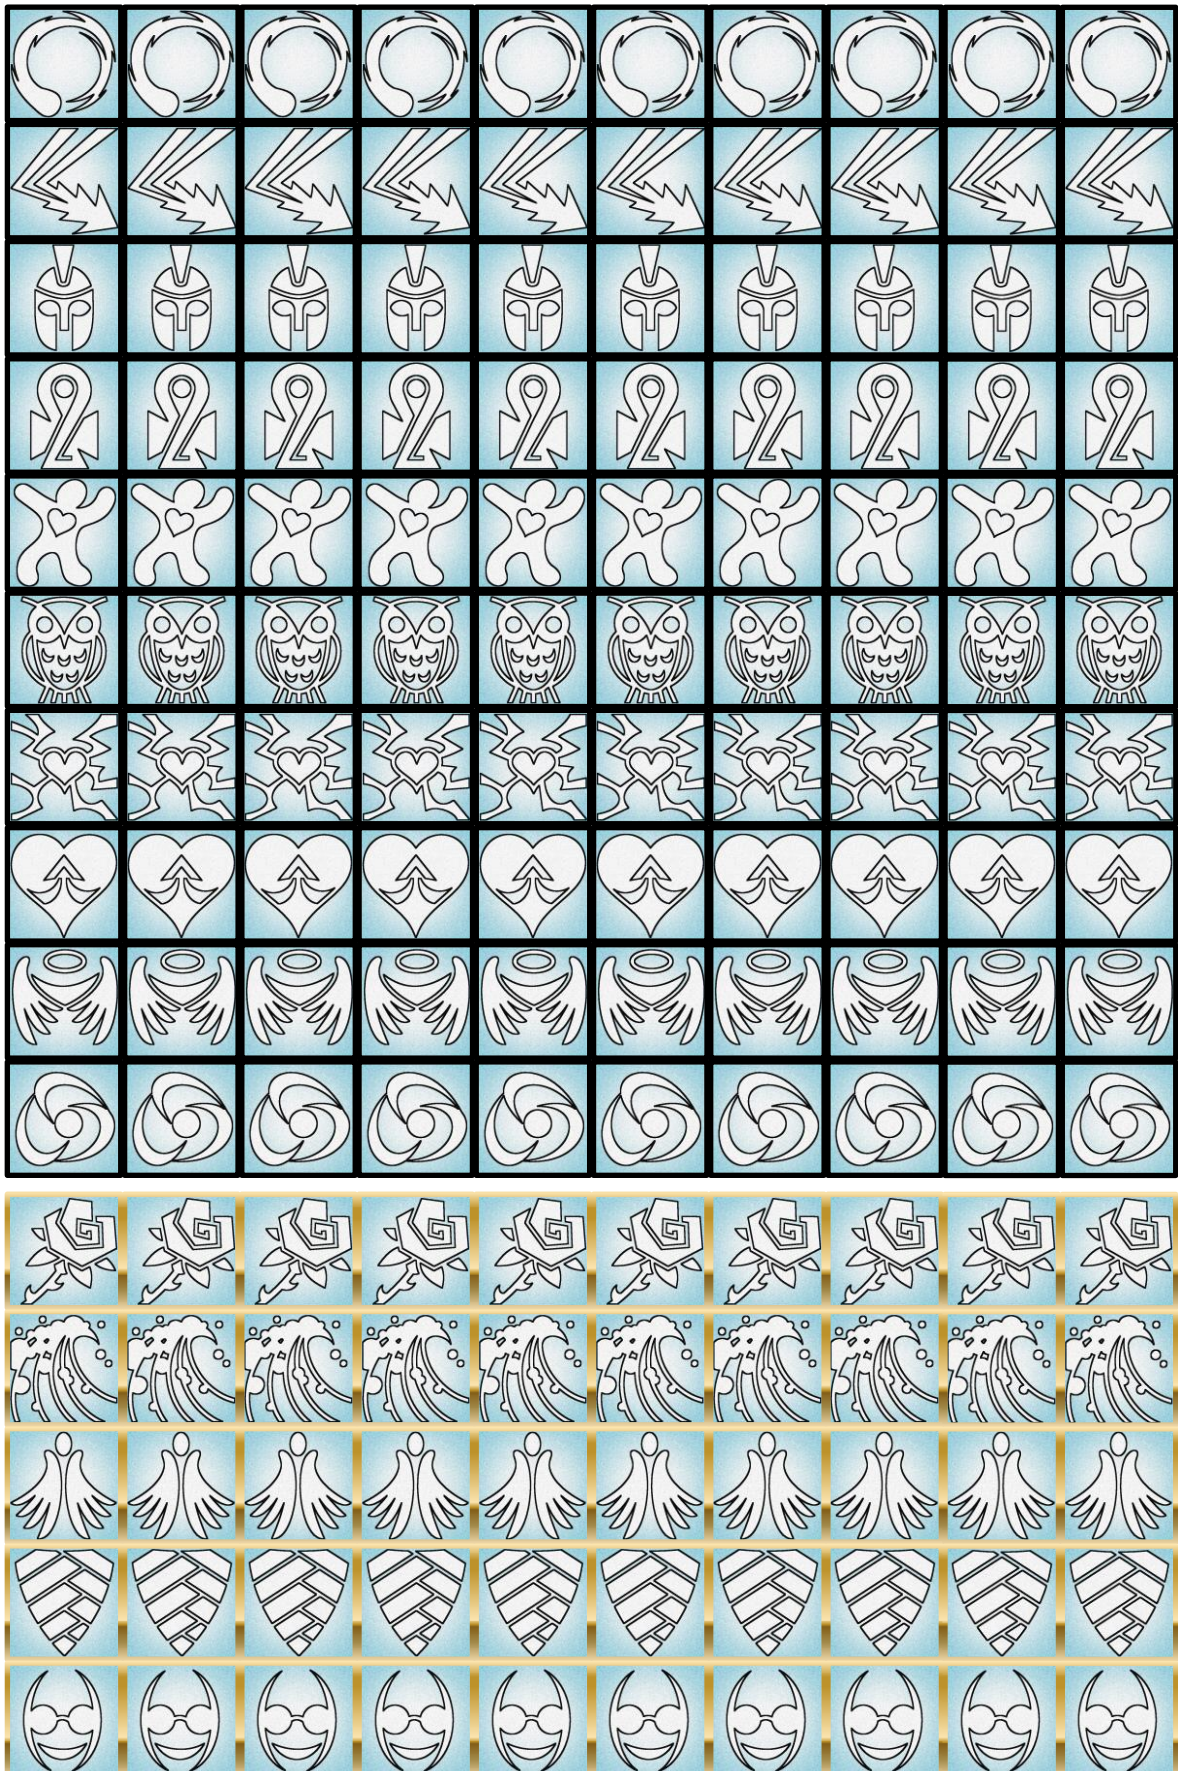

# Warrior

# Harbinger

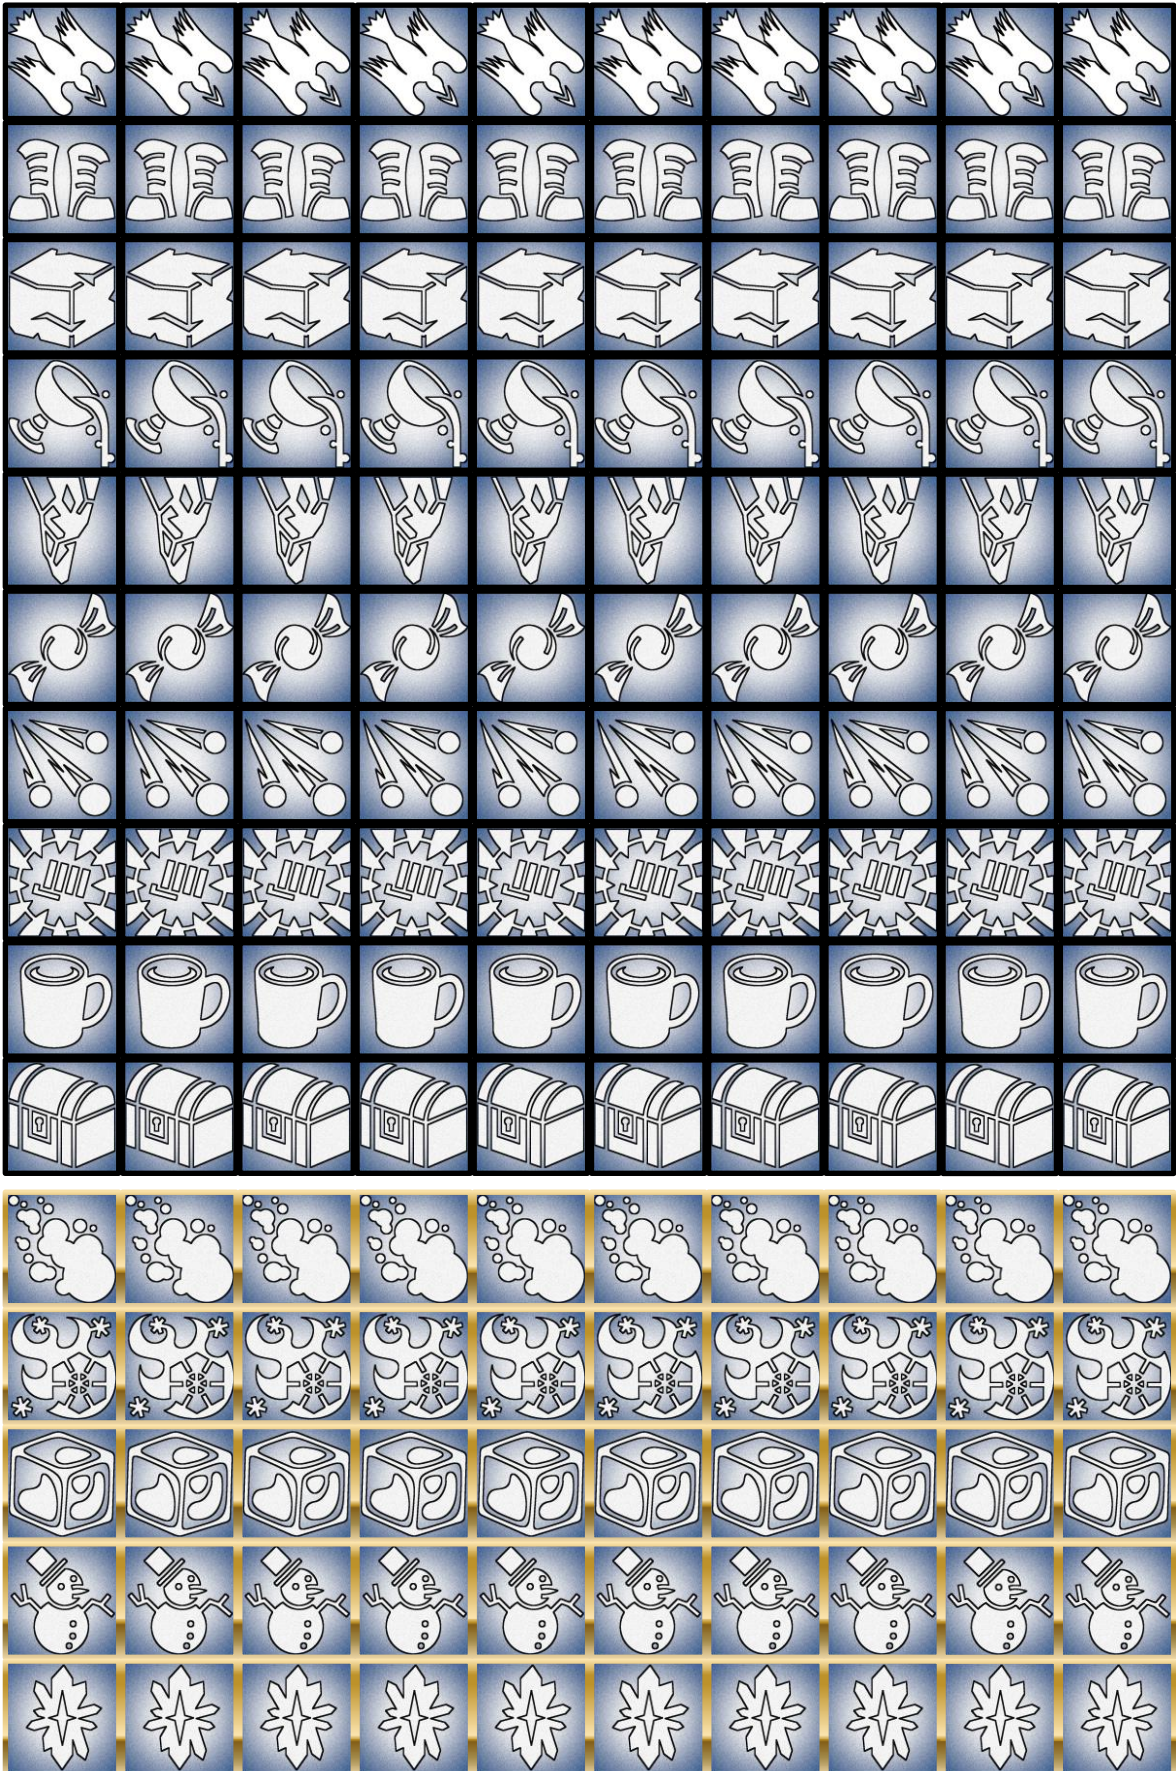

# Zealot

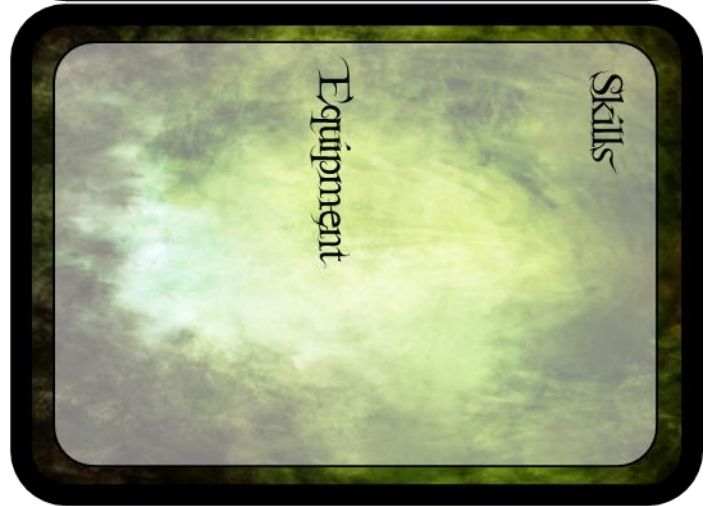

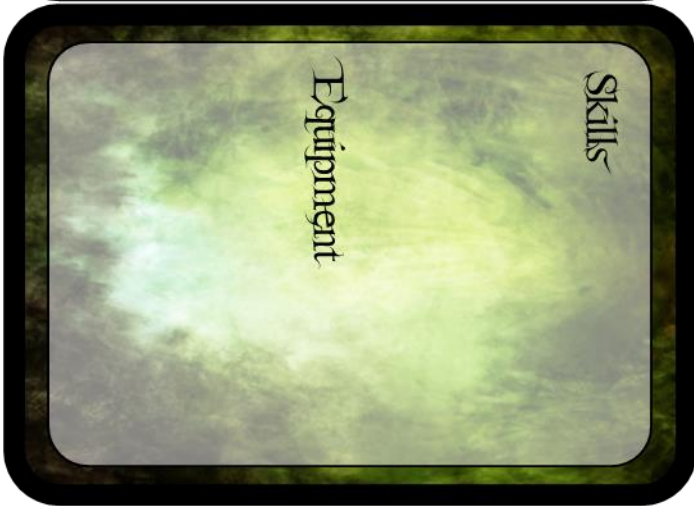

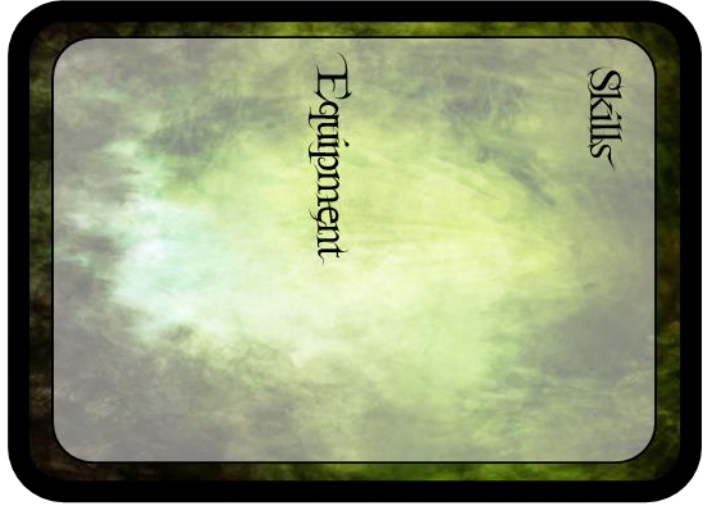

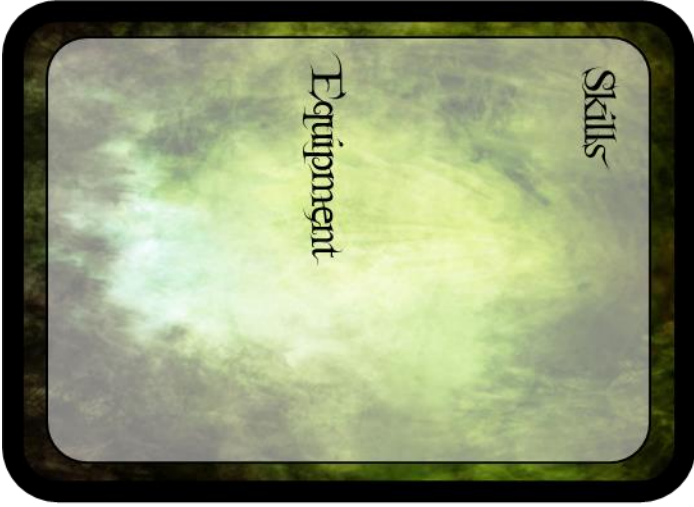

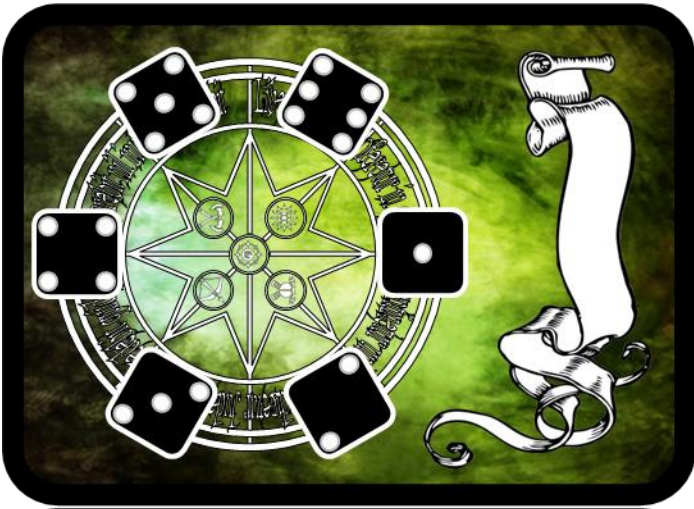

# Snowfall

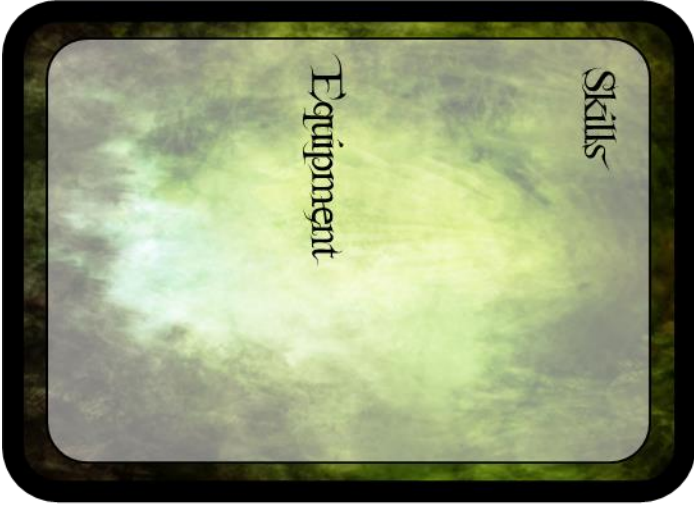

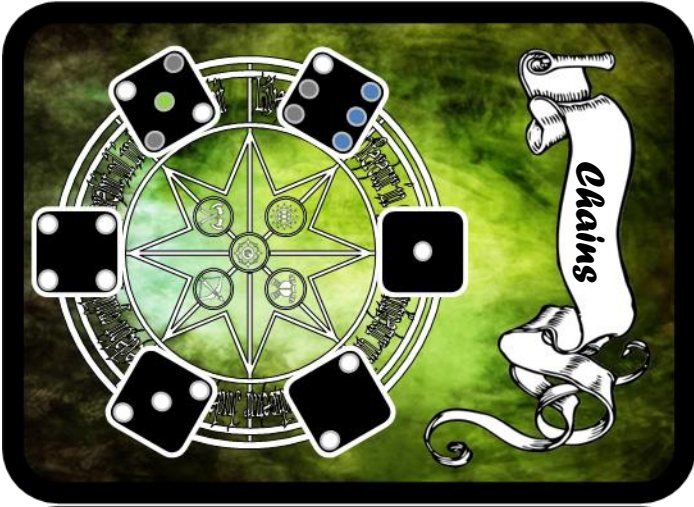

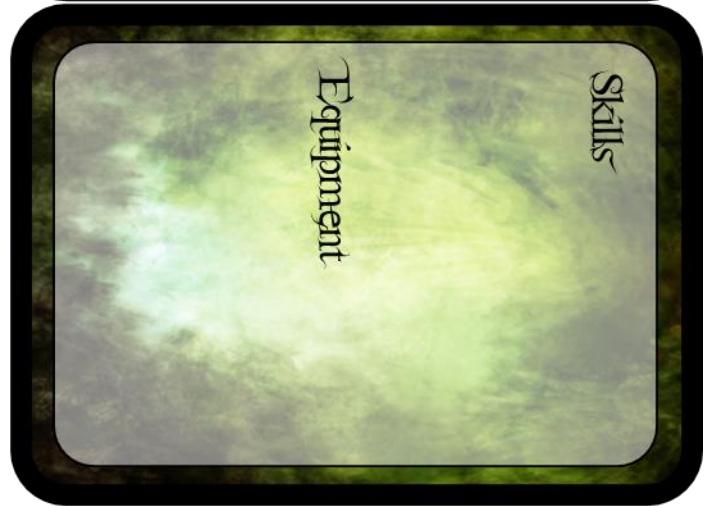

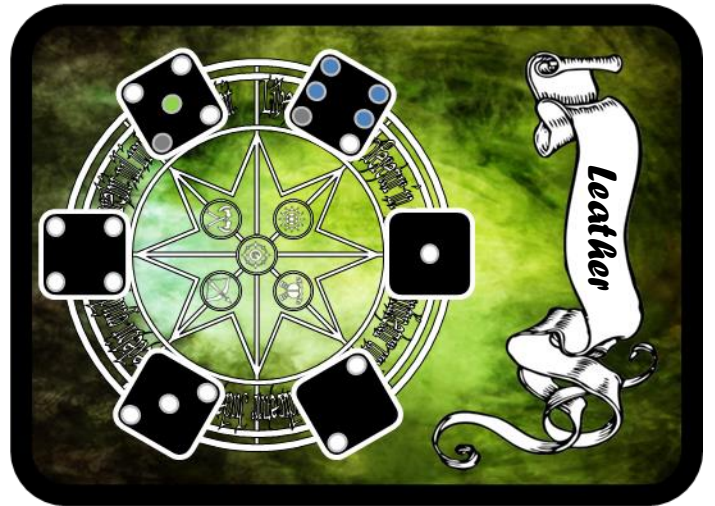

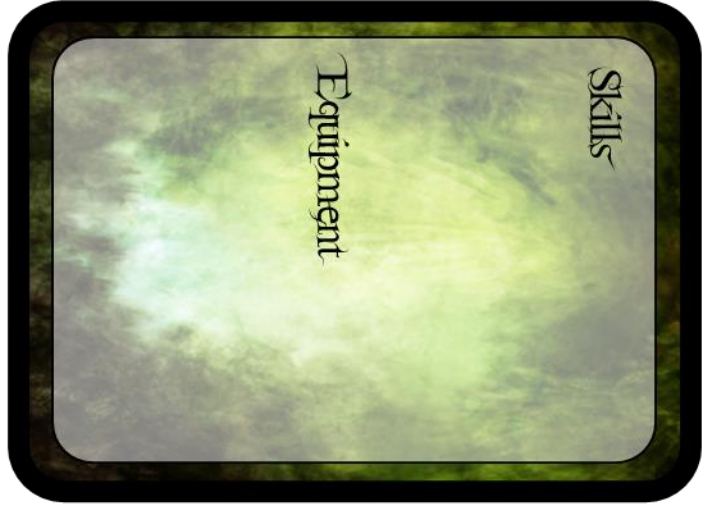

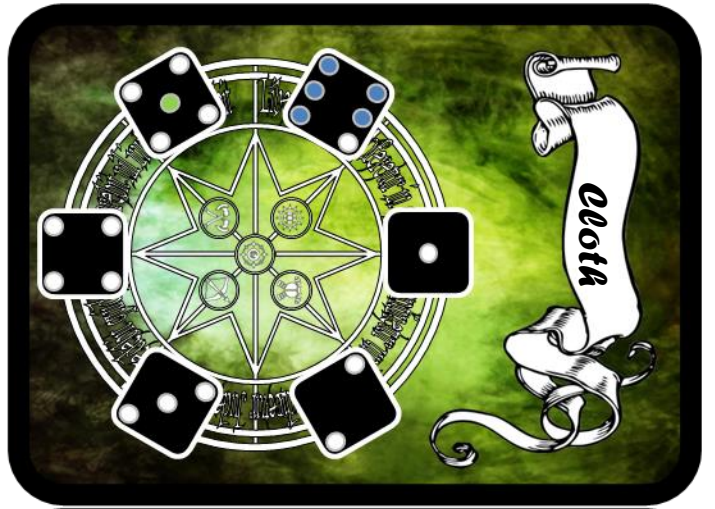

# Regular Hero Cards

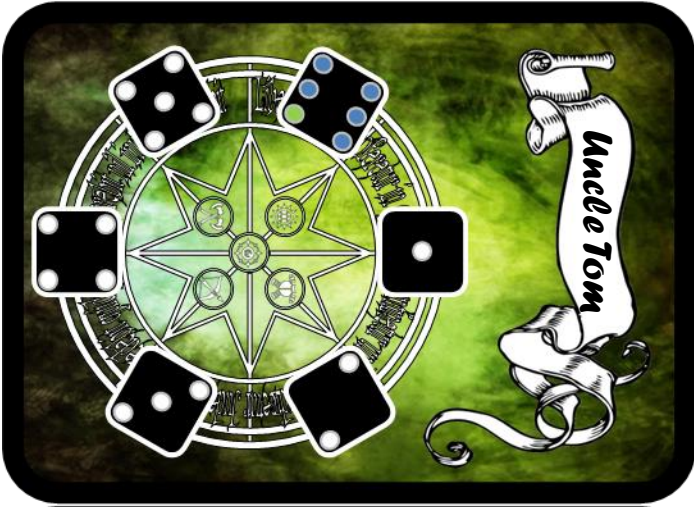

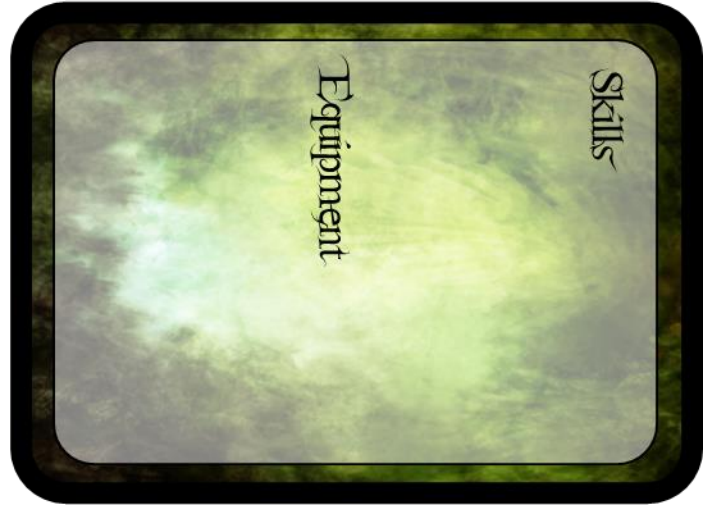

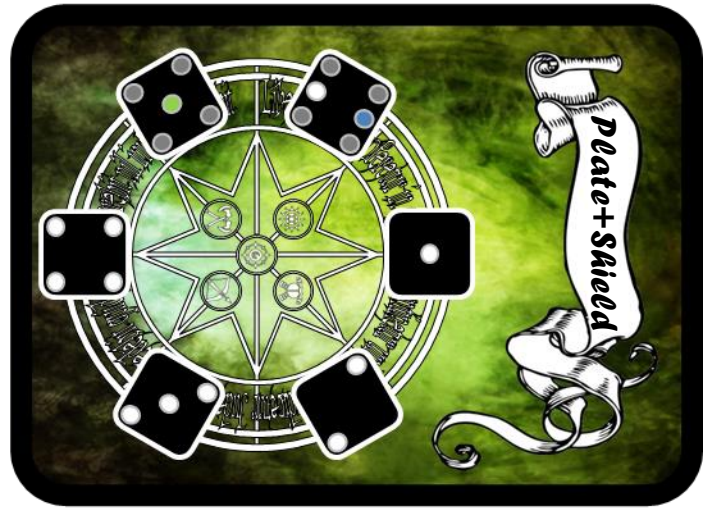

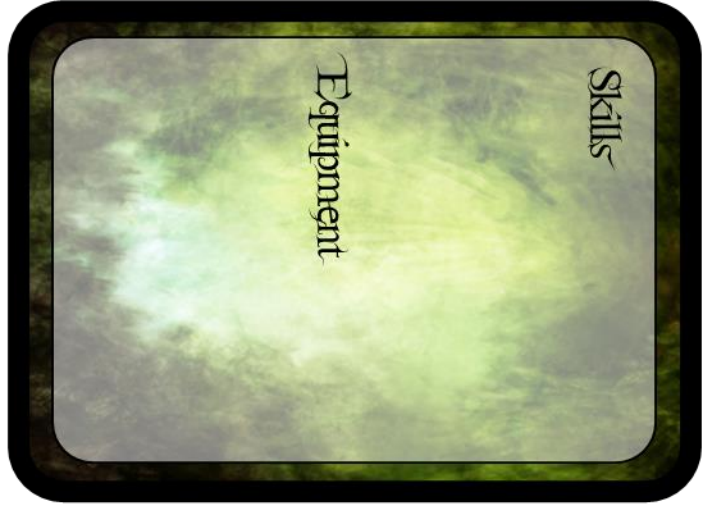

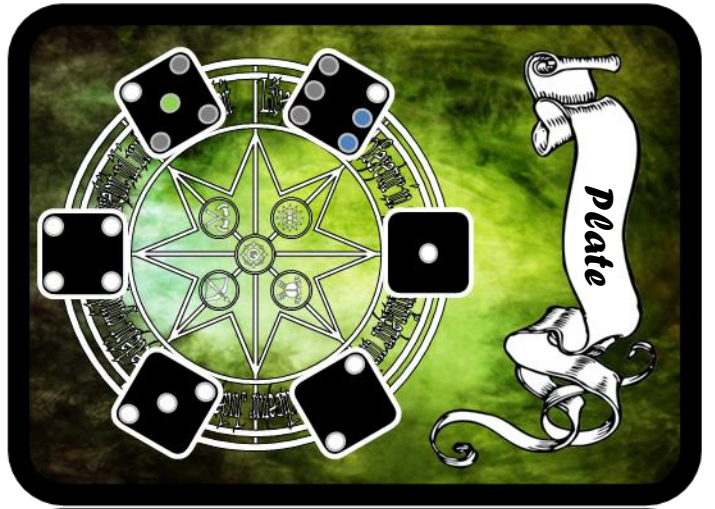

# Dummies

Disregard either the blue Magic pips or the grey Defence pips, depending on the mission!

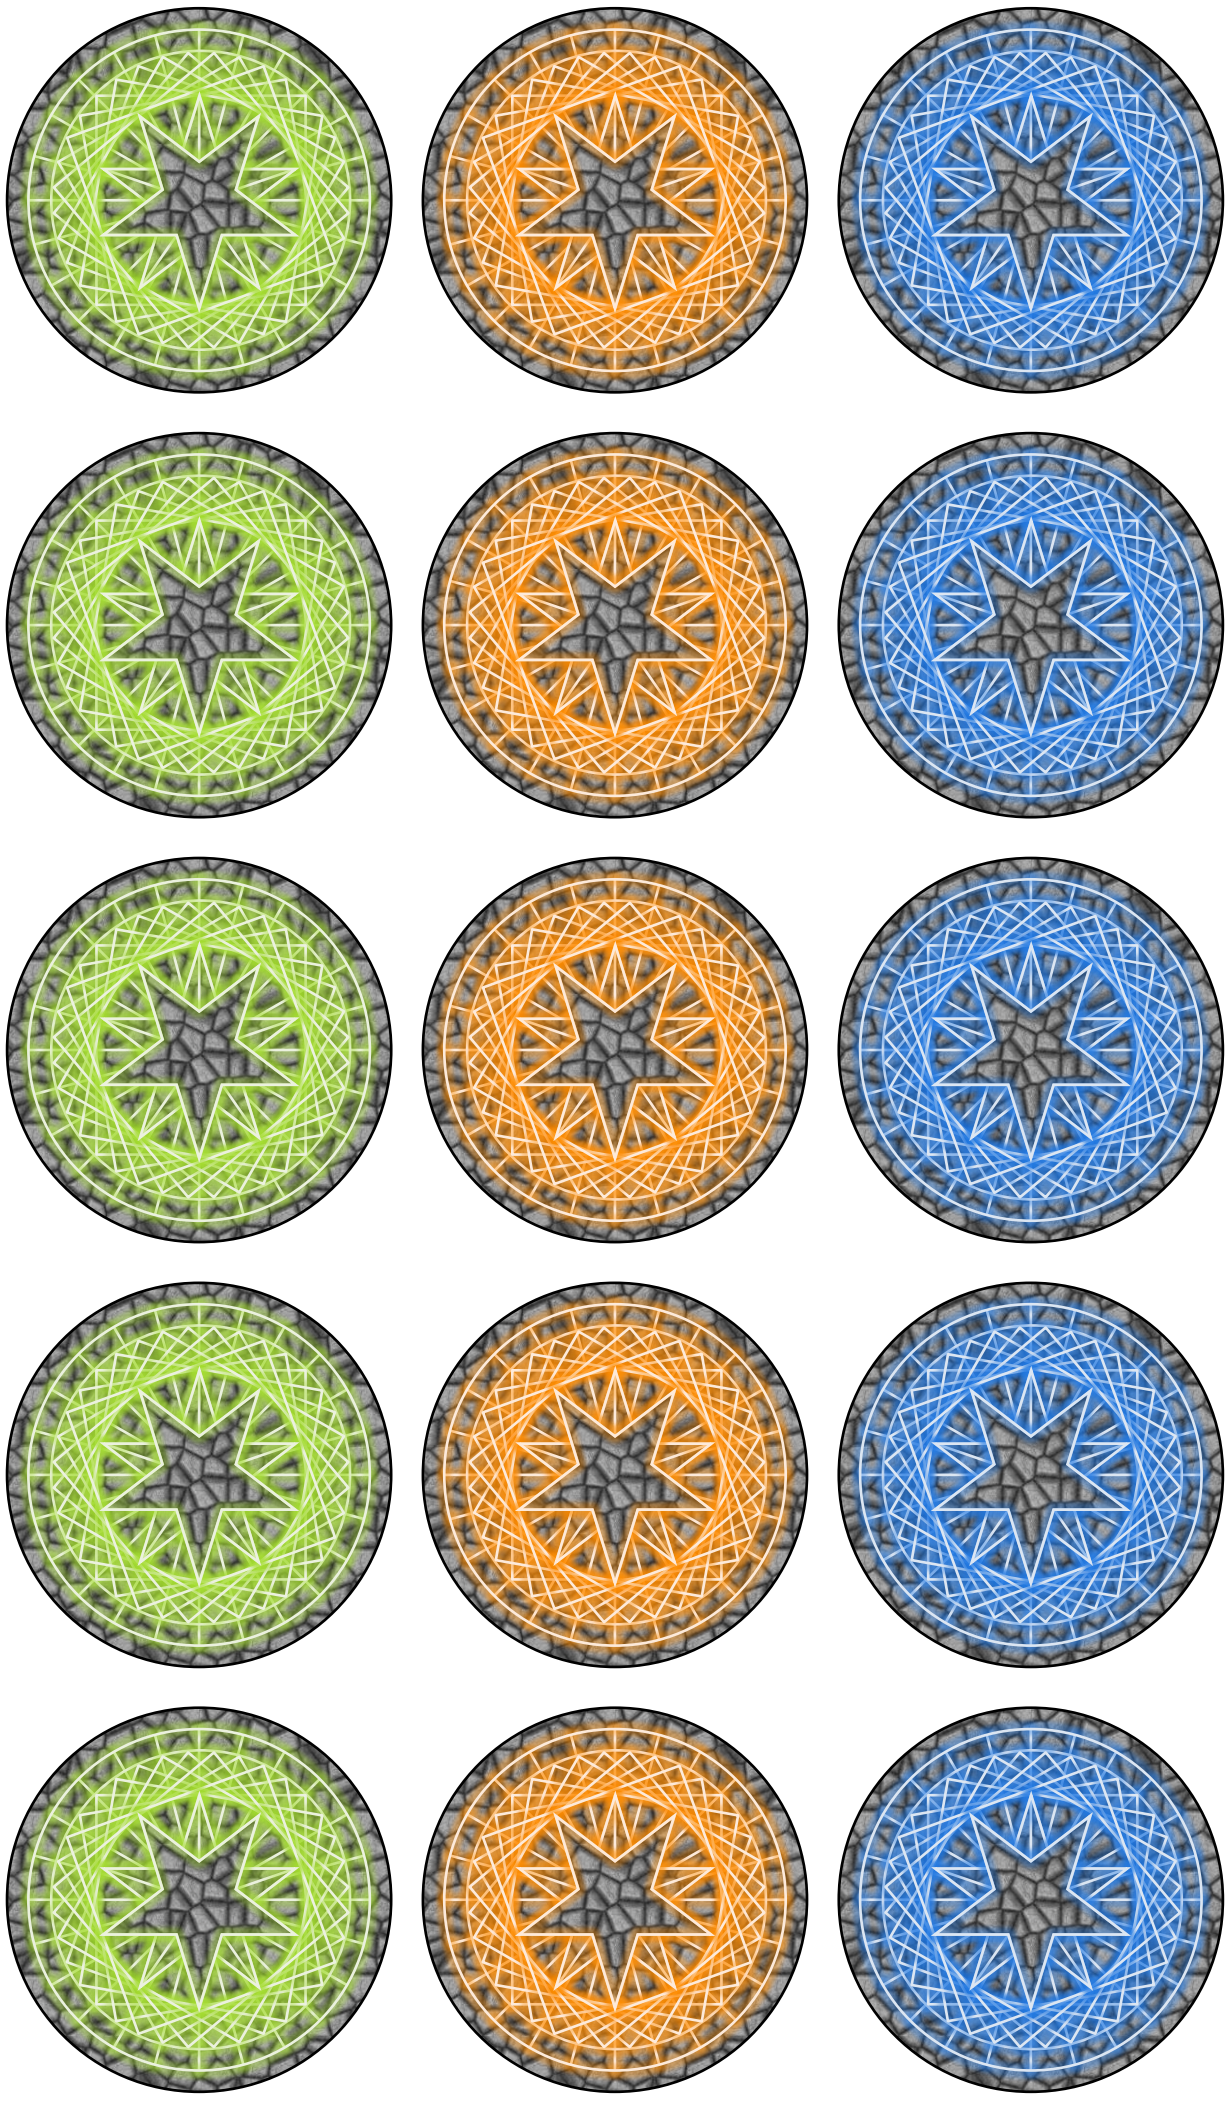

More Dummies and Uncle Tom

# Snowfall Hero Cards

*Magic Circles*

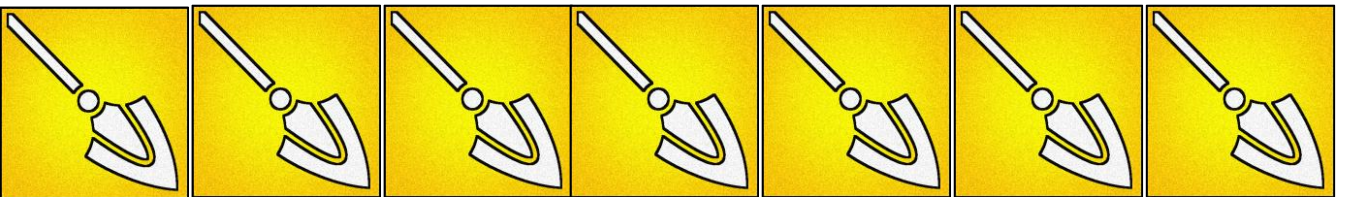

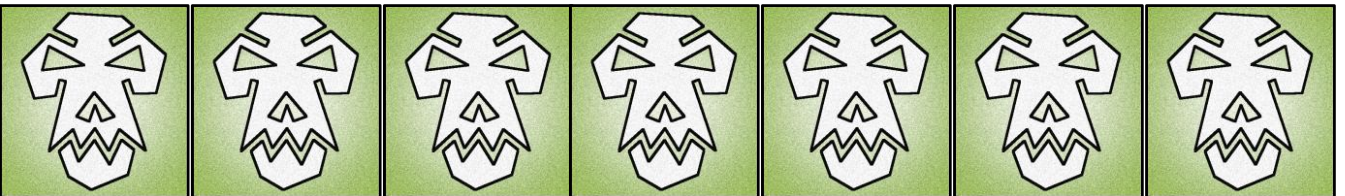

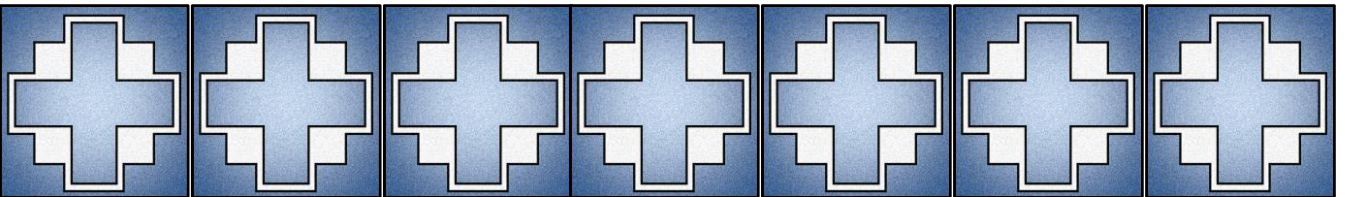

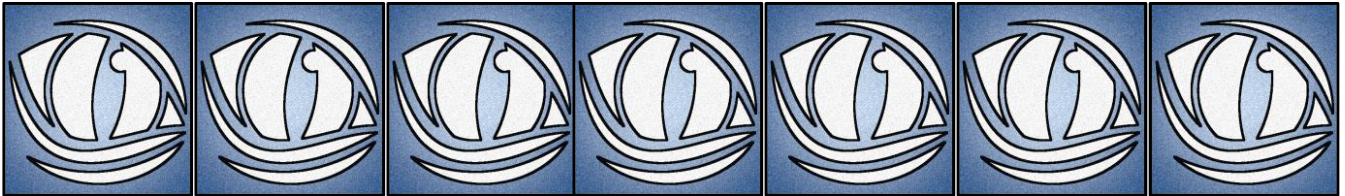

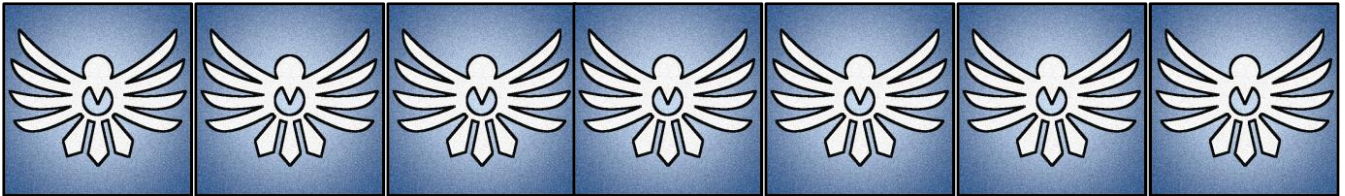

*Glue each orange circle to a green circle, keep the blue ones separate!*

# Condition counters

# Flags, Status and Reload counters

## Credits:

Cover Art:  
Little Witchby *brandrificus*  
Forest Background (Hero Card) by *BBS-Brushes*

Make sure to visit both of them at deviantart for their fantastic artwork!

Icons on the counters are taken with kind permission from [www.game-icons.net](http://www.game-icons.net)

Credits go out as well to all those gals and guys creating games for the love of it and releasing them for free. You folks are an incredible source of inspiration!
